ACCT 210 – Financial Accounting – Fall 2026

Instructor:	Laura M. Zellers, CPA
Department:	School of Accountancy
Office Location:	215B Woolsey Hall
Telephone:	316-978-6259
Email:	laura.zellers@wichita.edu
Preferred Method of Contact:	WSU E-mail
Student Office Hours:	By appointment via Microsoft Teams
Class Format:	Asynchronous Online
Prerequisites:	MATH 111 and BADM 162

Online Course Format

This course is delivered in a fully asynchronous online format. All lectures, learning activities, assignments, quizzes, and examinations are administered electronically through Blackboard Ultra and the Cengage CNOW platform.

Each instructional module contains recorded lectures covering the chapter concepts, along with additional walkthrough videos demonstrating representative exercises and problems. These resources are designed to reinforce the material presented in the textbook and help prepare you for homework, quizzes, and exams.

Throughout the semester, additional course resources (including announcements, exam overview videos, etc.) may be posted within Blackboard. Students are expected to review all posted materials as part of the course. These resources are considered course content and may include information that is assessed on quizzes and exams.

Assignments are completed according to the separate **Assignment Schedule** posted in Blackboard. Students are responsible for monitoring Blackboard regularly and completing all coursework by the published deadlines.

How to Use This Syllabus

This syllabus provides information specific to ACCT 210 and also includes required Wichita State University policies. It should be viewed as a guide to the course rather than a

contract. While every effort is made to avoid changes, modifications may become necessary as the semester progresses.

Any updates to course policies, procedures, or scheduling will be communicated through Blackboard announcements and/or WSU e-mail. Students are responsible for monitoring both throughout the semester.

Student Office Hours

Although this is an asynchronous course, I strongly encourage students to reach out whenever questions arise.

Virtual meetings are available through Microsoft Teams for course-related discussions, clarification of accounting concepts, exam review, or general academic support. Meetings are optional but are an excellent opportunity to receive individualized assistance.

Students are responsible for requesting appointments with reasonable notice.

Course Description

Financial Accounting is the study of accounting as a means of communicating financial information about the activities of business enterprises. ACCT 210 emphasizes the concepts and principles underlying the measurement of income and financial position and examines how financial information is used to evaluate business performance and support economic decision-making.

Definition of a Credit Hour

Success in this three-credit-hour course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the semester (normally three hours per unit per week, including instructional time and independent study) for a total of approximately 135 hours devoted to instruction, preparation, studying, and other course-related activities.

Measurable Student Learning Outcomes

Upon successful completion of this course, students will be able to:

- Perform present value and future value computations.
- Prepare bank reconciliation statements.
- Conduct financial statement ratio analysis.
- Explain and demonstrate the effects of business transactions and economic events on the financial statements.
- Apply generally accepted accounting principles to accounting problems involving:
    - Revenue and expense recognition
    - Deferred and accrued revenues and expenses
    - Accounting for bad debts
    - Cash and bank reconciliations
    - Inventory costing methods, including FIFO, LIFO, and weighted-average
    - Property, plant, and equipment acquisition, depreciation, repair, and disposal
    - Bonds payable, including issuance and retirement
    - Treasury stock transactions
    - Stock dividends and stock splits

Required Course Materials

Textbook

Using Financial Accounting Information (1st Edition)
Warren, Jones, and Farmer (Cengage)

This course participates in Wichita State University's **Access Now** program. Your required course materials, including the Cengage Unlimited one-term subscription and CNOW access, are provided through Access Now and billed directly to your student account.

Instructions for accessing your materials, along with any applicable opt-in/opt-out deadlines established by the university, are available through Blackboard and the Access Now program. Students experiencing access issues should contact the Access Now office promptly so any problems can be resolved before assignments are due.

Technology Requirements

Students are responsible for maintaining reliable access to a computer with a stable internet connection capable of running Blackboard Ultra, Cengage CNOW, and Honorlock.

A webcam and microphone are required for proctored examinations.

Students should verify that their computer meets Wichita State University's recommended technical standards before the semester begins. University computer laboratories remain available for students who need access to appropriate technology.

Online Testing

This course includes online, remotely proctored examinations using Honorlock at no additional cost to students.

Students are expected to review and follow all testing procedures outlined in the separate **Testing Expectations & Honorlock Addendum**, which is posted in Blackboard and considered part of this course. The addendum contains detailed information regarding testing procedures, technology requirements, permitted materials, troubleshooting expectations, and examination protocols. Failure to follow these procedures may affect a student's ability to successfully complete an examination or may require additional review before an exam grade is considered final.

In accordance with Wichita State University policy, the WSU Testing Center also offers limited in-person proctoring services for a minimal fee. Because Honorlock is the standard testing platform for this course, use of the WSU Testing Center or any other alternate testing arrangement will only be approved in unique, case-by-case circumstances and solely at the instructor's discretion. Any alternate testing arrangement requires prior instructor approval.

Class Protocol, Conduct, and Decorum

- Although this course is delivered asynchronously, students are expected to remain actively engaged throughout the semester. Active participation includes completing the assigned readings, watching all recorded lectures and supplemental instructional videos, reviewing Blackboard announcements, and completing assignments, quizzes, and examinations by the published deadlines.
- Financial Accounting is a cumulative course. Concepts introduced early in the semester provide the foundation for later topics. Students who remain current with the

course material are far more likely to be successful than those who attempt to catch up near assignment or examination deadlines.

- Students are expected to conduct themselves in a respectful and professional manner in all course-related communications and interactions.
- If you are experiencing difficulty with course material, please contact me as early as possible. Accounting concepts build quickly, and addressing questions early is often the best way to avoid larger problems later in the semester.

Contact Policy

- WSU e-mail is the preferred method of communication for this course.
- When contacting me, please include **ACCT 210** in the subject line and provide sufficient information for me to understand your question before responding. Please include your full name in all correspondence.
- Questions regarding Blackboard, Cengage, or Honorlock technical issues should be directed to the appropriate technical support resources immediately. If a technical issue may affect your ability to complete an assignment or examination, you are expected to notify me as soon as possible and retain any applicable support documentation.

Response Time

- I strive to respond to student e-mails within **24 hours** during the work week. Messages received during evenings, weekends, holidays, or periods of unusually high volume may require additional response time.
- Assignments completed in Cengage automatically synchronize with the Blackboard Gradebook. Blackboard should always be considered the official record of your course grades. Although Cengage displays assignment scores, Blackboard is the official point of reference for all course grades.
- Students are responsible for monitoring their grades throughout the semester. Any questions regarding grading discrepancies must be brought to my attention within **one week** of the assignment due date or grade posting. After that time, there is no guarantee that adjustments can be made.

Sexual Harassment, Discrimination and Retaliation

Wichita State University is committed to creating a safe and healthy environment for all of our community members. This includes the elimination of sexual misconduct, relationship violence, and stalking within the University community. These incidents may interfere with or limit an individual's ability to benefit from or fully participate in the

University's educational programs.

Students are asked to immediately report incidents to the University Police Department, (316) 978-3450 or students may contact the Title IX Coordinator at (316) 978-5177 or submit a report to the Office of Civil Rights, Title IX & ADA Compliance at Office of Civil Rights, Title IX & ADA Compliance (CTAC) Report Form (maxient.com).

Students may also report incidents to an instructor, faculty or staff member, who are required by law to notify the Title IX Coordinator. If a student wishes to keep the information confidential, the student may speak with staff members of the Counseling and Psychological Services (316) 978-3440 or Student Health Services (316) 978-3620.

Sexual assault prevention training is required of all students, faculty and staff. These trainings, in addition to being highly interactive and engaging, are based in research around the best practices for healthy communities. Students will need to complete this training in the fall semester before being able to enroll for the spring. For more information regarding the training, visit the CTAC website at: https://www.wichita.edu/administration/ctac/training.php.

Students with Disabilities

A disability is something that affects a major life activity. These life activities include but are not limited to, learning, walking, breathing, hearing, and seeing, in addition to many other physical, sensory functions, and psychological disabilities.

If you are a student with a disability or believe you might have a disability, which requires accommodations, please contact the Office of Student Accommodations and Testing (OSAT) at https://www.wichita.edu/services/accommodations/index.php to discuss reasonable and appropriate accommodations and eligibility requirements. It is the University's goal that learning experiences be as accessible as possible. If you anticipate or experience physical or academic barriers based on disability OSAT will review your concerns and determine, with you, what academic accommodations are necessary and appropriate for you. For example, adaptions of teaching methods, class materials or testing may be made on a case-by-case basis if warranted, as required by the Americans with Disabilities Act (ADA). All information and documentation of your disability is confidential and will not be released by OSAT without your written permission.

The Office of Student Accommodations and Testing (OSAT) is located in the Shocker Success Center, room 118, (316) 978-3309 (voice/tty) (316-854-3032 videophone). Students seeking an accommodation must complete the online application at: https://hunter.accessiblelearning.com/Wichita/ApplicationStudent.aspx.

Prohibition on Discrimination

Wichita State University is committed to being a welcoming campus for all students, staff and faculty. Wichita State University Policy 3.06 / Sexual Harassment, Discrimination and Retaliation for Employees, Students and Visitors prohibits discrimination on the basis of federal and state protected categories. Retaliation against an individual filing or cooperating in a complaint process is also prohibited.

Students from all diverse backgrounds and perspectives are welcome in this course and the diversity that students bring to this course should be viewed as a resource, strength, and benefit. All materials and activities are presented with the intent to be respectful of all students regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, or culture. Please let me know ways to improve the effectiveness of the course for you personally or for other students or student groups. In addition, if any of our class meetings conflict with your religious events, please let me know so that we can make arrangements for you.

Complaints or concerns related to alleged discrimination may be directed to the Office of Civil Rights, Title IX & ADA Compliance (CTAC), Wichita State University, 316-978-3187, ctac@wichita.edu.

Syllabus Policies and Student Resources

All students should familiarize themselves with the course-related policies and student resources that can be found at: www.wichita.edu/syllabuspolicies

These include:

- Important Academic Dates
- Inclement Weather Event and Emergency Event
- Academic Integrity
- Unauthorized Use of Generative AI
- Personal Identity Updates
- Concealed Carry Policy
- Video and Audio Recording
- Shocker Alert System
- Intellectual Property
- CARE Team
- Counseling & Prevention Services
- The Office of the Student Advocate
- Academic Appeals
- Student Health Services
- Heskett Center & Campus Recreation
- First Generation Students
- Tobacco Free Campus

- FERPA
- Student Resolution Guide

Grading Scale

WSU uses a +/- grading scale for final grades and to calculate grade point averages. In this class, grades are assigned according to the following chart. (Other classes might assign grades differently: Be sure to understand the different grading scales in all your classes.)

Grades will be assigned on the following scale of accumulated points:

Letter Grade	Grade Range (Percentage)	
	At Least	Less Than
A	93%	100%
A-	90%	92%
B+	87%	89%
B	83%	86%
B-	80%	82%
C+	77%	79%
C	73%	76%
C-	70%	72%
D+	67%	69%
D	63%	66%
D-	60%	62%
F	0%	59%

Assignments

Course grades will be determined according to the following table:

Exams (4@90 pts each)	360
Modular Activities (12@5 pts each)	60
Homework Assignments (12@5 pts each)	60
Chapter Quizzes (12@10 pts each)	120
TOTAL:	**600**

Course Assessments

Course grades are determined through a combination of Modular Activities, Homework, Quizzes, and Examinations. Additional details regarding assignment availability and due dates are provided in the separate Assignment Schedule.

Modular Activities (MAs)

Each chapter of coverage includes a Modular Activity designed to reinforce the assigned reading and recorded lectures. Modular Activities are completed individually through Cengage CNOW and should generally be completed before beginning the homework assignment.

Modular Activities are due **Friday evenings at 11:55 p.m. (Central Time).**

Homework Assignments

Homework assignments are completed through Cengage CNOW and provide additional practice applying chapter concepts. Students have three attempts on homework assignments, with the correct answers carrying over and the highest score recorded.

Homework assignments are due **Saturday evenings at 11:55 p.m. (Central Time).**

Chapter Quizzes

Each instructional module concludes with a chapter quiz designed to assess understanding of the assigned material. Quizzes are completed through Blackboard and should be taken only after completing the reading, lectures, Modular Activity, and Homework.

Chapter Quizzes are due **Sunday evenings at 11:55 p.m. (Central Time).** Chapter quizzes utilize Honorlock for browser security; however, a webcam is not required.

Examinations

Four examinations are administered throughout the semester. Unlike the weekly assignments, examinations are completed during designated testing windows (24 hours) as published on the Assignment Schedule. (an exception is being made for Exam Four)

Each examination is administered through Blackboard using Honorlock. Students are responsible for reviewing the separate **Testing Expectations & Honorlock Addendum** prior to each examination.

Academic Integrity

Students are expected to uphold the highest standards of academic integrity and are responsible for knowing and following Wichita State University's Student Academic Integrity Policy.

In this course, all coursework (including Modular Activities, homework assignments, chapter quizzes, and examinations) must represent each student's own work unless collaboration is specifically authorized.

The unauthorized use of generative artificial intelligence (AI) tools, including ChatGPT and similar technologies, is prohibited unless expressly permitted within the assignment instructions. Students may be asked to demonstrate mastery of assignment learning outcomes through an alternate assessment if questions arise regarding the originality of submitted work.

Students should also be aware that:

- Selling or distributing proprietary course materials through websites or services such as Chegg, Course Hero, or similar platforms is prohibited and may result in referral to the Office of Student Conduct and Community Standards.
- Uploading, photographing, reproducing, or sharing course assessments is prohibited.

Violations of academic integrity will be handled in accordance with Wichita State University policy and may result in academic sanctions and referral to the Office of Student Conduct and Community Standards.

Assignment Availability

To provide additional flexibility, coursework is generally released in multiple instructional segments throughout the semester rather than one week at a time. Students are encouraged to work at a pace that suits them.

While assignments may be available well in advance, all coursework must be completed by the published deadlines listed on the Assignment Schedule.

Missed Assignments and Exams

All assignments (including modular activities, homework, and quizzes) and all exams are due by the designated due date. The four exams are administered during fixed 24-hour testing windows, as noted on the Assignment Schedule.

Except as required by university policy or approved accommodations, exceptions for early or late testing will not be granted. Please refer to the Assignment Schedule when making personal, work, and travel plans.

Extra Credit

No extra credit is offered in this course.
